Prescription Drugs - \$10/\$35/\$70

Effective October 1, 2009, the Prescription Drugs benefit of your plan is revised to read as follows:

Prescription drugs (including oral contraceptives) and other covered items will be provided in full as described below after you have paid the specified copay amount. Prescription drugs and other covered items must be furnished by a participating pharmacy or a participating mail order supplier. There are more than 1,200 participating pharmacies in our Washington State network from which to choose, as listed in our current provider directory. A list of these participating pharmacies, along with a list of participating out-of-state pharmacies is available on our Web site at www.asuris.com. **Benefits will be subject to any applicable waiting periods, limitations, and exclusions, except that Prescription Drugs Benefits will not be subject to the coordination of benefits provisions or to any medical deductible or stoploss described in this plan.**

Getting Your Prescription Filled:

- Present your identification card at a participating pharmacy.
- Pay your applicable copay amount.
- Prescription drugs furnished by a participating pharmacy will be limited to a 34-day supply, except as otherwise specified.

Using Our Mail Order Service:

- Pay your applicable copay amount.
- Send an order form and the prescription along with your copay amount to the address listed on the mail order service form.
- Prescription drugs furnished by mail order will be limited to a 90-day supply per purchase, except that certain drugs, including but not limited to antidepressants, narcotics, and other select medications may be limited to a lesser supply as indicated on your prescription or as required by the Company.
- Drugs requiring continuous refrigeration may not be available through mail order service.

Covered Items: Prescription drugs, which are included in the Company's current drug formulary, will be covered when medically necessary for the treatment of an illness, injury, or disability covered under this plan, subject to all provisions described below. Providers may request coverage of drugs not included in the current drug formulary by calling the Company. Other items covered under this benefit and requiring a prescription include:

- Legend vitamins for prenatal care.
- Smoking cessation prescription drugs and medications, limited to a 90-day lifetime maximum supply.
- Diabetic supplies, including insulin and insulin syringes.
- Oral contraceptive drugs will be provided for a single copay per prepackaged monthly cycle. A maximum of three prepackaged monthly cycles may be purchased at one time for one copay per monthly cycle.

Formulary: A formulary is a list of selected generic and brand-name preferred drugs, which is established, reviewed, and updated routinely by the Company. All drugs are reviewed and selected for inclusion in the Company's formulary by an outside committee of providers, including physicians and pharmacists. Drugs are selected based on published scientific evidence and support proper use and cost-effective medication decisions. If clinical data show several drugs are equally effective, the committee usually chooses the most cost-effective ones. For convenience, the list is available on our Web site at www.asuris.com.

Copays: You will be responsible for paying the appropriate copay level as specified below for each covered prescription or refill.

Tier 1 - Generic Formulary Drugs – means drugs included in the formulary that are equivalent to the brand-name version, are marketed and sold by more than one source, and are listed in widely accepted references as a generic drug based on manufacturer and price. Equivalent means the U.S. Food and Drug Administration (FDA) ensures that the generic must: a) have the same active ingredients found in the brand-name version; b) meet FDA specifications for quality, purity, and potency; and c) have the same medical effect as the brand-name version.

Participating Pharmacies\$10.00
Participating Mail Order Service\$30.00

Tier 2 - Brand-Name Formulary Drugs – means drugs included in the formulary that are under patent and are generally marketed and sold by only one source.

Participating Pharmacies\$35.00
Participating Mail Order Service\$105.00

Tier 3 - Non-Formulary Drugs – means drugs that do not appear in the formulary list established by the Company.

Participating Pharmacies\$70.00
Participating Mail Order Service\$210.00

However, if the allowed amount is less than the appropriate copay you will pay only the allowed amount. If your provider prescribes or you elect to purchase brand-name drugs for which a less expensive generic equivalent is available, you will be responsible for paying the difference in price between the brand-name drug and the generic drug in addition to the copay amount.

Limitations: Benefits for prescription drugs and other covered items will be limited as follows:

- Prescription drug must be included in the current drug formulary of approved medications established by the Company.
- Prescription drugs must be prescribed by a provider covered under the plan who is acting within the scope of his or her license.
